(b) whether it is also a fact that works relating to construction of dams, roads and laying of electric lines in States have been hampered due to complexity of Provisions of Forests (Conservations) Act, 1980 and the compulsion of permission from Government; and

(c) the number of people who have got temporary lease of agriculture land and by when they would be provided the lease of land-owner?

THE MINISTER OF ENVIRONMENT AND FORESTS (SHRI T.R. BAALU): (a) Villages adjoining forest areas are substantially dependent upon the forests for meeting their needs for fodder, fuelwood and small timber.

(b) The Forest (Conservation) Act, 1980 only regulates indiscriminate and unnecessary diversion of forest land. The Act also aims at sustained supply of forest usufructs to local communities and safeguarding reduction in the extent of natural forests. Every proposal requiring forest land for non-forestry purposes is considered on merit and in case the diversion is necessary and unavoidable, permission is accorded with suitable conditions keeping due regard to environmental security of the area. Since 1980, under the provisions of Forest (Conservation) Act, 1980, more than 7600 proposals for development and other facilities related works involving about 5.30 lakh hectare forest land has been approved by the Ministry.

(c) Guidelines issued under the Act stipulate that forest land should not be diverted for non-site specific activities like agriculture. However, where the temporary leases of forest land for agriculture purpose have been given prior to coming in force of the Act, proposals of the State Governments are considered by the Government under the provisions of Forest (Conservation) Act, 1980.

Financial assistance for Ranthambhor Tiger Project

†1820. DR. ABRAR AHMED:
SHRI MOOLCHAND MEENA:
